

Office Memorandum • UNITED STATES GOVERNMENT

25X1A

TO :

DATE: 1 June 1959

FROM : Chief, School of International Communism

SUBJECT: SIC Participation in Service School Programs from
September 1957 to date

1. Attached is a list of the various service schools and dates and lecture titles of SIC participation in their programs.

2. Although the attached list is complete it does not necessarily indicate the radiating influence of efforts given by the SIC staff in other schools. I cite the following examples.

25X1A

a. [] has been invited to speak at the Air War College at Maxwell Air Force Base in September 1959, as a result of his participation in the Command and Staff College there.

b. As a result of SIC participation in the Inter-American Defense Board lecture series the lectures given there have been sent (unattributed) to the SEATO War College and also have been given to USIS for unattributed distribution in various areas.

c. Regular participation by three SIC instructors in the monthly FSI "Communist and Strategy and Tactics Course" has the practical result of speaking to service groups because of the high percentage of service students in that course. Some service school assignments have come as a direct result of being heard in the FSI course.

3. We will be glad to furnish any additional information that you desire.
